- Javascript, Node.js, HTML, CSS, Express.js, Handlebars, MySQL, Handlebars, Bootstrap
- Led development on this application that allows the user to draft game and character concepts manually or using randomization

---

## Work Experience

### United States Postal Service / Sales Service and Distribution

February 2017 - January 2021, Guilford CT

- Acted as both a local supervisor and as a regional union steward, taking advantage of any opportunity to learn new skills
- Managed financial accounts and product stock, ensuring weekly finances were accurately reported and measured for future evaluation

### United States Postal Service / City Carrier

June 2016 - February 2017, Waterford CT

- Sorted and delivered mail and parcels across designated areas, learning and effectively executing a new route each day
- Worked collaboratively with colleagues to ensure prompt deliveries on a daily basis

### Star Fish Market / Assistant Manager

July 2012 - June 2016, Guilford CT

- Managed social media presence and advertising, bringing in additional business and establishing a web presence
- Screened and trained prospective new employees, many of which are still working there to this day

---

## Education

### University of Connecticut / Certificate

January 2021 - Current, Stamford CT

Full stack Web Development Certificate program that covers HTML5, CSS3, Javascript, jQuery, Express.js, React.js, Node.js, MongoDB, MySQL, Git, database theory, and agile methodology

### Connecticut College / Bachelor of Arts - International Relations and Global Islamic Studies
